Flag Day

In the United States, Flag Day is celebrated on June 14. It commemorates the adoption of the flag of the United States, which happened on June 14, 1777, by resolution of the Second Continental Congress.

On June 14, 1777, less than one year after Betsy Ross had received the order from General Washington to make the first flag, the Second Continental Congress passed a flag resolution stating: *Resolved, That the flag of the United States be thirteen stripes, alternate red and white; that the union be thirteen stars, white in a blue field, representing a new Constellation.*

The first national observance of Flag Day was on June 14, 1877, 100 years after the flag resolution was adopted by the Continental Congress.
